Concept

Wedding during the War!

Someone will twist their finger at their temple and look at it with disapproval. However, just as beauty will save the world, so will love conquer war. Don't be surprised, but the tense situation in the country has pushed many Ukrainians to take such a serious step as starting a family. Since the full-scale invasion of the occupiers, more than 40 thousand marriages have been registered in Ukraine. More than 11 thousand of them were registered in the first weeks of the war. The wedding boom is observed among the military, volunteers, and civilians. It is when our lives are under threat that we rethink our values and need love the most. Therefore, even in the midst of severe upheaval, new Ukrainian families must be created as a symbol of life that continues under any circumstances. The documentary is about heartbreaking love stories during the war.

All the participants of the film are real people.
